

Antone

1. I thought it was a wonderful and fun program. It help me increase in reading and help me in math. I would ~~to~~ come back next year to help me out more. I would tell others so they can come and get better at the subject they need help on. I think the volunteers for taking there time out to help. They help me bring up my grades a lot. ~~She~~ She gave us time ~~exercise~~ exercise and get up off the ~~the~~ couch. If someone need help I will tell them to come to this program. ~~that~~ Thank you for setting the trip up for legoland.

Thank You, Antone
