Mrs. Alice Faye was a very good volunteer. And all the other volunteers (college students) my grades been going up. My school teachers been shocked. I liked this brothers & sisters doing the right thing because it motivates and encouraged me. I used to have all D's & F's. But now I have all B's & A's. I'm telling you guys Mrs. Alice Faye Jones is a really good person. All the college students really did a good job on helping us kids with our. So I would like to thank them for. Most of all the 6 graders in Mrs. Alice Faye program struggle with math. Most of us was mainly in the same math class. It was very hard. But when we starting coming to her program. It got more easier. Yes I would come back to Mrs. Alice Faye Jones program. And I would love to ask others to join her program. It's free.

The program was very great!!!  
I would love to come back!
