1 The program was fun. Nice cause we got someone to help us understand our work and how to do it. And when we get to play games at the end of the program. And the games are fun.

2 Well the program helped me by the person that's helping me understand my work and how to do it and I understand it. By doing step by step in talk through it slow that how I understand it.

3 Yes I would come back cause it is a good program and it helps you, and also I would tell other family members about this program. That they help you a lot and they want you to always to understand the work and they would make sure you understand it.
